

Graphic Elements

Throughout the site, we have used squares as a graphic element to accent and enhance images and illustrations. The squares motif is a reference to the current OITE logo, and is meant to add a little more personality and branding to images and illustrations. In addition, we use thin gray rules and borders throughout the site as graphical elements. This style is meant to evoke a sense of “scientific precision.”

How one postdoc overcame imposter fears

In a Nature Career Column, Kelsey Inouye, describes her career path and her struggles along the way. She completed her PhD at the University of Oxford...[read this post](#)
